APRIL 2012 TEAM OF THE MONTH

TEAM: Krystle Hester, EMS Firefighter
Joseph Boisseau, Deputy Fire Marshall

NARRATIVE: The Communications Center for the City of Colonial Heights will begin providing pre-arrival instructions for those who call with a medical emergency. The Emergency Medical Dispatch (EMD) program has taken over 5 years to realize within the City. Once funding was overcome, the program was able to be secured and move towards implementation. The program provides the continuity of care that has been missing without this program. The key component to implementing this program was securing qualified instructors to deliver the curriculum to the dispatching staff.

Firefighter Hester and Lieutenant Boisseau were asked to become instructors in order to deliver the necessary course of instruction to the dispatchers. They embraced this opportunity with enthusiasm and commitment, realizing the potential benefit to those in need. They have witnessed this program in surrounding jurisdictions and seen how other dispatchers were able to provide a higher level of service to their 911 callers.

Firefighter Hester's background includes experience as a dispatcher, certification as a Nationally Registered Paramedic, and she is currently a Field Training Officer (FTO) for the department. She also works part-time gaining additional clinical experience in a hospital.

Lieutenant Boisseau's background incorporates his dispatcher knowledge, law enforcement qualifications, state certified Deputy Fire Marshall and his certification as a Nationally Registered Paramedic.

Firefighter Hester and Lt. Boisseau's training began in September 2011 by their successful completion of an intense on-line training program. This was followed with a classroom component required to complete their instruction. Instruction was concluded by December 2011. Beginning in January 2012, the dispatchers underwent an intense four-week course of instruction which included the history and benefits of becoming an Emergency Medical Dispatcher (EMD). The core of the course was learning to deliver the pre-arrival instructions to those calling 911 with medical emergencies. Field trips were taken to area hospitals to see how the "continuity of care" commencing with the initial call for service and how it ultimately impacted the patient's overall care.

Neither instructor sought individual “glory” in their contribution to this project. They approached the project as one needed to enhance the service delivery of the City’s emergency medical services. The Fire Department has only heard positive comments regarding their preparations, execution and response. They are a firm believer that this team aided in enhancing our service delivery. The Fire Department is very proud of this team and feels that they deserve proper recognition for a job well done and their commitment to public safety.

MEMORANDUM

TO: The Honorable Mayor and Members of Council

FROM: Hugh P. Fisher, III
City Attorney

DATE: May 2, 2012

RE: Civil Penalties for Animal Violations

You will recall that Chapter 98 of the City Code now provides for the imposition of civil penalties, rather than criminal sanctions, for certain violations of the Chapter. This office has been working with Animal Control and Captain Keith Early to develop a “Notice of Violation” form for police officers to use for the offenses in City Code § 98-11 for which a civil penalty will be imposed. The attached ordinance has been drafted to amend § 98-11 by outlining the procedure to be followed when a civil “Notice of Violation” is issued.

This ordinance was discussed previously by Council at its October 2011 work session. However, I requested, and Council agreed, to delay action on the ordinance because of concerns the Treasurer raised at the work session.

CITY OF COLONIAL HEIGHTS

DEPARTMENT OF PUBLIC WORKS

William E. Henley, P.E.
Director/City Engineer

City Hall □ 201 James Avenue □ P.O. Box 3401
Colonial Heights, Virginia 23834

MEMORANDUM

TO: Thomas L. Mattis, City Manager

FROM: William (Chuck) E. Henley, P. E., Director of Public Works/City Engineer

SUBJECT: Request for Budget Amendment/Appropriation of Funds – Extra Compliance Costs for Landfill Property

DATE: March 30, 2012

WE Chuck Henley

As you are aware, department staff administers the City's program to ensure that environmental conditions on the north and south landfill sites comply with the Consent Order issued by the Virginia Department of Environmental Quality (VDEQ) and the Virginia Solid Waste Management Regulations. The consent order requires that the City regularly monitor landfill gas and groundwater pollution levels at various locations throughout each site and report the results to VDEQ. In addition, the regulations require that the City implement preventative measures to protect public health and safety and to take corrective action whenever gas concentrations or groundwater contaminants exceed regulated limits. Compliance work performed by the City is subject to the review and approval of VDEQ staff and periodically, extra work is necessary in response to sampling and testing results.

In the first quarter of this fiscal year the department implemented corrective action to address regulatory exceedances discovered during past monitoring cycles. The extra work included the installation of additional passive vents on the north landfill site to mitigate the concentration of gas, which was approaching the explosive limit. Also included was additional sampling, testing and reporting to comply with groundwater protection standards for both sites. This extra work could not have been anticipated at the time of adoption of current year's fiscal plan.

As a result, compliance costs are projected to exceed the amount adopted and appropriated in the current budget for the cost object, Landfill Monitoring. Consequently, the department is requesting a budget amendment in the amount of \$25,000 to supplement the \$80,000 amount originally adopted and appropriated. Approval of this amendment should provide sufficient resources to pay for the professional services needed to ensure that the City remains in compliance with regulatory requirements through the end of this fiscal year.

As no other source of funds is available due to the current Solid Waste budget being completely subscribed, the department recommends and requests the transfer of a portion of retained earnings (unrestricted cash balance, \$72,012, fiscal year ending June 30, 2011, CAFR) to the Landfill Monitoring cost object. In addition, the department requests Council's appropriation of the funds for the above-mentioned purpose. The Department submits this request pursuant to § 6.19. Certification of Funds., prior to incurring costs and making payments under the current contract for professional services with Tetra Tech Environmental.
